

BRIAN WADE

NAME: Brian Wade

D.O.B: 7th August 1987

POSITION IN BAND: Drummer

BRIEF HISTORY: Received my first drum kit when I was about ten years old and then at first year of secondary school I was starting to get involved with bands. In the early stages most of the music was of a punk rock origin (Green day, Bloodhound gang etc.) with elements of rock such as Cheap Trick, Thin Lizzy etc. My steady band by 3rd year was the infamous "Zinc", a three piece, consisting of mates Andy and Jive as well as myself. We won the high school Battle Of The Bands 2002, which was quite an achievement considering we were a good bit younger than the guys we were up against.

As that band drifted apart another began to form (little did I know this band would lead to a potential future career) when I was invited to join Estrella, then comprising long term, primary school mate Tommy Gunn on bass and his elder brothers Paul on vocals and Luke on guitar. Initially I didn't stay too long and started another punk band, after a few gigs with them, my band and Estrella played the same gig, after talking I decided to rejoin. Estrella became regular at gigs, initially in and around Caithness, and then the Inverness area before making the step to relocate to Aberdeen.

Now we are a five piece after high school friend and fellow motorcycle enthusiast Graham Christie joined in mid September. Now 18 months on we are writing, recording & gigging in and around Aberdeen as well as further a field. More importantly, the future looks bright and it's all damn good fun.

FAVOURITE BAND: Guns n' Roses

INFLUENCES: Guns n' Roses, Motley Crue, Aerosmith, AC/DC, Led Zeppelin

PREVIOUS BANDS: Mostly punk rock bands until later on in High School, when 'Rock' took over.
