

PAUL GUNN

NICK NAME: Pablo

D.O.B: 3rd August 1983

POSITION IN BAND: Lead Singer

INSPIRATION: The inspiration for wanting to play in a Rock band came when I was in my dad's attic and I picked up his old satellite guitar! From that moment I wanted to be lead guitarist in a rock band! I even had a name for them "Electric Shoes"- that's when I asked for my first guitar!

ASPIRING GOD OF ROCK SINCE: Used to go to my cousin Marc's house and play his nylon stringed acoustic when I was still in primary school. When I went to high school I became a lead guitarist in many bands. However, in about 4th year, I tried my hand at singing a song or two. It was a nerve wracking experience and at that point I never thought I would ever be a singer! That said, there was a thrill and excitement in being a front man that quite honestly changed my life forever.

WHO INSPIRED ME TO SING: Apart from the singers from my favourite bands, my mom! I used to always sing around the house and she would say "you should try being a singer in a band". Little did I know that these words of encouragement would lead me to making the best decision of my life, to become a rock n' roll singer.
